PROFESSIONAL SUMMARY

Fourth-year IT student at FEU Alabang specializing in Web and Mobile Application Development. Skilled in UI/UX design, front-end development, and graphic design, with a track record of building interfaces, logos, and digital layouts that blend technical precision with creative problem-solving.

EXPERIENCE

Design & Data Services
Freelance/Contract | 2025–2026
- Designed logos and UI/UX wireframes for commissioned clients (***WMA Subcon & M Squared Construction Services***), from brief to final delivery
- Encoded company records accurately across multiple concurrent projects

Leadership & Extracurricular Involvement
Student | 2024–2026
- Appointed as Documentation Committee, FEU Alabang Ignite Research and Exhibit 2026
- Designed UI/UX mockups for ***Game-Tight with Loctite***, a TikTok creator campaign pitch, at the Henkel Philippines Hackathon 2026
- Contributed to research, documentation, and development for ***ReNewvate***, a capstone marketplace application for reusable construction materials
- Took part in presenting original quasi-experimental research at the UPHSD Student Research Competition 2024
- Encoded database records for the Foreign Students Department during the UPHSD immersion program in 2024

ACCOMPLISHED PROJECTS (https://miguelhufancia-portfolio.vercel.app/)

Game-Tight with Loctite
